Job Description for Data Analyst

Job Title	Data Analyst
Company Name	SkillCraft Technology
Department	Data Analytics
Location	Bangalore,India (Hybrid + Remote)
Salary Range	Rs. 7,00,000 to 10,00,000 Per Annum

Company Overview:

SkillCraft Technology is a rapidly growing technology company dedicated to delivering data-driven solutions and innovative digital services. We believe in transforming raw data into meaningful insights that help businesses make strategic decisions and achieve sustainable growth.

Job Summary:

SkillCraft Technology is looking for a detail-oriented and analytical Mid-Level Data Analyst to join our growing Business Intelligence team. In the role, you will turn complex data into actionable insights that drive strategic business decisions. The ideal candidate is passionate about data accuracy, enjoy solving puzzles, and can bridge the gap between technical data and business strategy.

Key Responsibilities:

- **Data Collection & Cleaning:** Gather data from multiple corporate sources, and clean datasets to ensure 100% accuracy and consistency.
- **Reporting & Dashboards:** Design, Develop, and maintain interactive business dashboards using tools like Power BI or Tableau for executive leadership.
- **Cross-Functional Collaboration:** Partner with sales, marketing, and finance departments to understand their data requirements and deliver custom reports.
- **Data Monitoring:** Constantly monitor data quality and track company Key Performance Indicators (KPIs) to spot anomalies early.

Required Skills & Qualifications:

Technical Skills-

- **Advanced MS Excel:** Mastery of VLOOKUP/XLOOKUP, Pivot Tables, and complex data modeling formulas.
- **Database Management:** Proficient in writing and optimization of SQL queries to extract data from databases.
- **Data Visualization:** Hands-on-experience building clear, intuitive dashboards in Power BI or Tableau.

Soft Skills-

- **Communications:** Excellent verbal and written communication skills to explain complex technical data to non-technical managers.
- **Analytical Thinking:** Strong problem-solving skills with the ability to look at numbers and see business stories.
- **Time Management:** Ability to manage multiple data projects simultaneously and meet tight deadlines.

Perks & Benefits:

- **Financial Incentives:** Performance-linked annual bonuses and Employee Provident Fund (EPF) benefits.
- **Skill Development:** Paid certifications allowances for learning advanced AI and Data tools (Coursera, Udemy, etc.).
- **Health & Wellness:** Comprehensive Medical Insurance for you and your immediate family members.
- **Office Perks:** Vibrant work environment, fully-stocked pantry, and regular team-building outings.
- **Work-Life Balance:** Flexible working hours and a hybrid work model.

Application Process:

Interested candidates can apply by submitting their updated resume and portfolio to the HR Department.
